### The Wildlife Audience

Plan to join ABE for the 75th North American Wildlife and Natural Resources Conference. A wide ranging program has been announced for the 1,000+ delegates estimated to attend. This conference is presented by the Wildlife Management Institute. WMI's stated goal is to promote better management and wise utilization of all renewable natural resources in the public interest. Over 100 individual meetings within nine "Special Session" areas are planned. It's an incredible program, too long to fully disclose here. Some of the highlights, sessions and groups presenting in the program are outlined below. This is a big, busy and important exhibit event for any serious publisher involved in Conservation, Natural Resources, Environmental Science, Natural Science or Animal Studies. ABE offers the low cost/high potential proven means of reaching this influential audience.
